KEY PERSON

Mr. Dilip C Chavan (Proprietor)

2005-2023 : Owner Samarth Enterprises

2023 : Director New Venture DYSP Buildcon

The Construction Quality Policy is the primary document for quality management for all SAMARTH ENTERPRISES projects. The plan explains and guides SAMARTH ENTERPRISES in meeting all quality requirements.

- SAMARTH ENTERPRISES intends to adopt this management plan in order to provide confidence to clients that its products and services will satisfy the customer's specified requirements.
- Before incorporating acquired items into the work, ensure that they meet specifications.
- Work procedures must be planned and controlled.
- Plan and execute inspection and testing to ensure that the work processes are effective and that the completed work conforms to the contract.
- Ensure that subcontractors are carefully selected and that their work is in accordance with the contract.
- Maintain meticulous records to demonstrate that the job complies with the contract.
- Improve procedures and work practices when opportunities to reduce errors, waste, and product non-conformities are identified.

Quality Policy

TRUST

Adopt transparent and fair practices in order to maintain long-term relationships with our clients.

SKILL

Employees who are experienced, skilled, and diverse aid in the achievement of new goals.

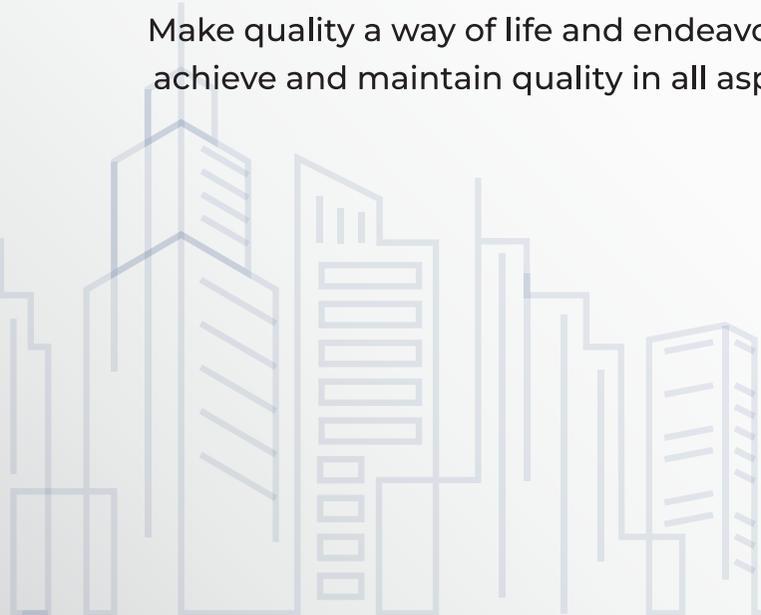

QUALITY

Make quality a way of life and endeavour to achieve and maintain quality in all aspects.

SAFETY

Ensure the safety and health of your employees and other assets.

We at SAMARTH ENTERPRISES

which work on public and private construction projects, are dedicated to presenting consistent growth in our performance in the areas of safety, occupational health, and the environment.

TO ACHIEVE THIS WE SHALL

- Ensure compliance with applicable SHE laws.
- Establish, review, and strengthen our SHE management processes continuously through periodic reviews with participation from all levels.
- Establish safe operational control procedures and follow safe regulations at all levels.
- Establish a culture of resource preservation and pollution avoidance.
- To achieve the goals of "no accident, no harm," work together.
